Ellsworth Handcrafted Bikes was awarded "Best 2009 All-Mountain Bike" by Singletracks

.com for its critically acclaimed "Moment" . Ellsworth Bikes was picked as the winner of the award based on Singletracks readers' feedback. Singletracks offers a user network for mountain bike trail reviews and gear evaluations and has over 100,000 subscribers.

"Many thanks to Singletracks.com for this acknowledgement. We're especially happy this award was given on behalf of the site's

readers, proving our motto 'those who ride, know,'" said **Tony Ellsworth**, founder. "We're looking forward to releasing the latest incarnation of the **Moment** in spring 2010 along with a lineup of freshly made SST versions of our classics plus our new, Rare Earth Carbon collection," **Ellsworth** added.

Because of its versatility, The **Moment** is loosely known as the "sport utility bike" in the **Ellsworth Bikes** lineup. Its light enough to be a standalone **trail bike** with 6 inches of forgiving travel and it's perfectly adept at multi-day endurance events or long all-mountain tours. The **Moment** serves as an alternative to the **Ellsworth** "Epiphany" but comes packaged with the same swaged, shaped, and tapered (SST) tubeset and ICT technology suspension, at a lower price point. In international competition, the **Moment** has taken Ellsworth athletes to endurance and 4x slopestyle podium finishes. **Singletracks'** editors, Syd Patrico and Jeff Barber, will be providing a full review of the **Moment** in the coming months.
