## Ellsworth Epiphany in "What Mtb?" suspension article

Fresh off the newstands, the new copy of "What Mtb?" magazine (August 2010) with a great, in-depth technical feature on full-suspension systems

Recent magazine award-winner the [Ellsworth Epiphany](#) is heavily featured in the first of two articles explaining the key differences between the 5 different suspension systems on the market

As befits the class leading "four-bar" (FSR style) Epiphany trail bike, the magazine has created an awesome illustration from a photograph of their rider on an Epiphany tackling a rocky descent

The Ellsworth Epiphany is available as a frame-only option in a variety of anodised finishes with several shock options including the Fox RP23 BV, but the smart money is spent on one of our "frame package" deals which includes a Fox Float 32 140mm QR15 fork and King headset for just £550 when bought with the frame!

Freeborn also specialise in full custom bike builds featuring the best components from SRAM, Fox, Rockshox, Avid, Hope, Easton, Stan's No-Tubes, Specialized, Thomson and other leading brands - please get in contact on **01403 251 252** or email [freebornhorsham@bleckmail.com](mailto:freebornhorsham@bleckmail.com)
